## Fifth Grade Benchmarks Mathematics

Level 5 - Student performance exceeds year-end standard
Level 3 - Student performance approaches year-end standard

Level 4 - Student performance meets year-end standard
Level 2 - Student demonstrates limited performance to year-end standard
evel - Student does not yet evidence understanding or application of skills related to year-end standard

| Student Performance Standard | Level 1 | Level 2 | Level 3 | Level 4 | Level 5 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Operations and Algebraic Thinking: |  |  |  |  |  |
| Write and interpret simple expressions. | Writes and interprets simple expressions with guidance. | Writes simple expressions that record some calculations with numbers; interprets some expressions; does not recognize errors. | Writes simple expressions that record calculations with numbers with few errors; interprets expressions with few errors; self-corrects most errors. | Consistently and accurately writes simple expressions that record calculations with numbers; consistently and accurately interprets expressions. | In addition to Level 4 performance, able to write expressions for novel problems or situations. |

| Numbers and Operations in Base Ten: |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Read and write whole numbers and decimals. | Reads and writes whole numbers and decimals with guidance. | Reads and writes some multi-digit whole numbers; reads and writes some decimals to the thousandths place; does not recognize most errors; evidences limited understanding of place value in whole numbers and decimals. | Reads and writes multi-digit whole numbers with few errors; reads and writes decimals to the thousandths place with few errors; selfcorrects most errors; evidences some understanding of place value in whole numbers and decimals. | Consistently and accurately reads and writes multi-digit whole numbers; consistently and accurately reads and writes decimals to the thousandths place; evidences understanding of place value in whole numbers and decimals. | In addition to Level 4 performance, able to apply place value understanding to novel problems or situations. |

| Compare and round whole numbers and decimals. | Compares and rounds whole numbers and decimals with guidance. | Compares and rounds some whole numbers and decimals to a given place; does not recognize errors; evidences limited understanding of place value when rounding. | Compares and rounds whole numbers and decimals to any given place with few errors; self-corrects most errors; evidences some understanding of place value when rounding. | Consistently and accurately compares and rounds whole numbers and decimals to any given place; evidences understanding of place value when rounding. | In addition to Level 4 performance, able to compare and round numbers based on novel problems or situations. |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Fluently multiply multidigit whole numbers. | Multiplies multi-digit whole numbers with guidance; limited memorization of multiplication facts impacts both speed and accuracy. | Multiplies multi-digit whole numbers with limited speed and accuracy; limited memorization of multiplication facts impacts both speed and accuracy. | Multiplies multi-digit whole numbers with increasing speed and accuracy; selfcorrects most errors. | Fluently (with speed and accuracy) multiplies multi-digit whole numbers. | In addition to Level 4 performance, models and explains multidigit multiplication of whole numbers to peers. |
| Divide four-digit dividends by two-digit divisors. | Divides with guidance; limited understanding of the relationship between multiplication and division impacts division process. | Divides up to fourdigit divisors by up to two-digit dividends with scaffolding using some strategies; does not recognize errors; illustrates and explains calculations with scaffolding; limited understanding of the relationship between multiplication and division impacts division process. | Divides up to fourdigit divisors by up to two-digit dividends with minimal errors using strategies based on place value, properties of operations, and the relationship between multiplication and division; self-corrects most errors; illustrates and explains some calculations using equations, arrays and area models. | Consistently and accurately divides up to four-digit divisors by up to two-digit dividends using strategies based on place value, properties of operations, and the relationship between multiplication and division; clearly illustrates and explains calculations using equations, arrays and area models. | In addition to Level 4 performance, models and explains division algorithm to peers; able to solve novel problems involving division. |

| Add and subtract decimals to the hundredths place. | Adds and subtracts decimals with guidance. | Adds and subtracts decimals to the hundredths place with scaffolding using some strategies; does not recognize errors; explains reasoning for using some strategies with scaffolding. | Adds and subtracts decimals to the hundredths place with few errors using strategies based on place value, properties of operations, and the relationship between addition and subtraction; selfcorrects most errors; explains reasoning for using some strategies. | Consistently and accurately adds and subtracts decimals to the hundredths place using strategies based on place value, properties of operations, and the relationship between addition and subtraction; clearly explains reasoning for using strategy. | In addition to Level 4 performance, models and explains addition and subtraction of decimals to peers; able to solve novel problems involving addition and subtraction of decimals. |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Multiply decimals to the hundredths place. | Multiplies decimals with guidance; limited memorization of multiplication facts impacts multiplication of decimals. | Multiplies decimals to the hundredths place with scaffolding using some strategies; does not recognize errors; explains reasoning for using some strategies with scaffolding; limited memorization of multiplication facts impacts multiplication of decimals. | Multiplies decimals to the hundredths place with few errors using strategies based on place value and properties of operations; selfcorrects most errors; explains reasoning for using some strategies. | Consistently and accurately multiplies decimals to the hundredths place using strategies based on place value and properties of operations; explains reasoning for using strategy. | In addition to Level 4 performance, models and explains multiplication of decimals to peers; able to solve novel problems involving multiplication of decimals. |
| Divide decimals to the hundredths place. | Divides decimals with guidance; limited memorization of multiplication facts and limited understanding of the relationship between multiplication and division impacts division of decimals. | Divides decimals to the hundredths place with scaffolding using some strategies; does not recognize errors; explains reasoning for using some strategies with scaffolding; limited memorization of multiplication facts and limited understanding of the relationship between | Divides decimals to the hundredths place with few errors using strategies based on place value and properties of operations; selfcorrects most errors; explains reasoning for using some strategies. | Consistently and accurately divides decimals to the hundredths place using strategies based on place value and properties of operations; explains reasoning for using selected strategy. | In addition to Level 4 performance, models and explains division of decimals to peers; able to solve novel problems involving division of decimals. |

Revised 2/17

|  |  | multiplication and <br> division impacts <br> division of decimals. |  |  |
| :--- | :--- | :--- | :--- | :--- |

| Number and Operations - Fractions: |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Add and subtract fractions with unlike denominators. | Adds and subtracts fractions with unlike denominators with guidance. | Adds and subtracts some fractions with unlike denominators including mixed numbers with scaffolding; does not recognize errors. | Adds and subtracts fractions with unlike denominators including mixed numbers with few errors by replacing given fractions with equivalent fractions; self-corrects most errors. | Consistently and accurately adds and subtracts fractions with unlike denominators including mixed numbers by replacing given fractions with equivalent fractions. | In addition to Level 4 performance, models and explains addition and subtraction of fractions with unlike denominators with peers; able to solve novel problems involving addition and subtraction of fractions with unlike denominators. |
| Solve word problems involving addition and subtraction of fractions. | Solves problems involving addition and subtraction of fractions with guidance. | Solves problems involving addition and subtraction of fractions with scaffolding; does not recognize errors. | Solves problems involving addition and subtraction of fractions with few errors; self-corrects most errors; assesses reasonableness of some responses by use of mental estimation, number sense, and benchmark fractions. | Consistently and accurately solves problems involving addition and subtraction of fractions; assesses reasonableness of responses by use of mental estimation, number sense, and benchmark fractions. | In addition to Level 4, models and explains solving word problems involving addition and subtraction of fractions to peers. |
| Multiply a fraction or whole number by a fraction. | Multiplies a fraction or whole number by a fraction with guidance; limited memorization of multiplication facts impacts multiplication of fractions. | Multiplies fractions or whole numbers by fractions with scaffolding; does not recognize errors; limited memorization of multiplication facts impacts multiplication of fractions. | Multiplies fractions or whole numbers by fractions with few errors by applying or extending previous understandings of multiplication; selfcorrects most errors. | Consistently and accurately multiplies fractions or whole numbers by fractions by applying or extending previous understandings of multiplication. | In addition to Level 4 performance, models and explains multiplication of a fraction or whole number by a fraction to peers; able to solve novel problems involving multiplication of a |

Revised 2/17

|  |  |  |  |  | fraction or whole number by a fraction. |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Solve word problems involving multiplication of fractions and mixed numbers. | Solves problems involving multiplication of fractions and mixed numbers with guidance. | Solves some real world problems involving multiplication of fractions and mixed numbers with scaffolding; does not recognize errors. | Solves real world problems involving multiplication of fractions and mixed numbers with few errors; self-corrects most errors. | Consistently and accurately solves real world problems involving multiplication of fractions and mixed numbers. | In addition to Level 4 performance, models and explains multiplication of fractions and mixed numbers to peers. |
| Divide fractions by whole numbers and whole numbers by fractions. | Divides fractions by whole numbers and whole numbers by fractions with guidance; limited understanding of the relationship between multiplication and division impacts division of fractions. | Divides fractions by whole numbers and whole numbers by fractions with scaffolding; does not recognize errors; limited understanding of the relationship between multiplication and division impacts division of fractions. | Divides fractions by whole numbers and whole numbers by fractions with few errors by applying or extending previous understandings of division; self-corrects most errors. | Consistently and accurately divides fractions by whole numbers and whole numbers by fractions by applying or extending previous understandings of division. | In addition to Level 4 performance, models and explains division of fractions by whole numbers and fractions to peers; able to solve novel problems involving division of fractions by whole numbers and fractions. |

$\left.\begin{array}{|l|l|l|l|l|l|}\hline \text { Measurement and Data: } \\ \hline \begin{array}{l}\text { Convert measurement } \\ \text { units. }\end{array} & \begin{array}{l}\text { Converts } \\ \text { measurement units } \\ \text { with guidance. }\end{array} & \begin{array}{l}\text { Converts some } \\ \text { different-sized } \\ \text { standard } \\ \text { measurement units } \\ \text { with scaffolding; does } \\ \text { not recognize errors; } \\ \text { uses these } \\ \text { conversions to solve } \\ \text { specific real world } \\ \text { problems. }\end{array} & \begin{array}{l}\text { Converts different- } \\ \text { sized standard } \\ \text { measurement units } \\ \text { within a given } \\ \text { measurement system } \\ \text { with few errors; self- } \\ \text { corrects most errors; } \\ \text { uses these } \\ \text { conversions to solve } \\ \text { some real world } \\ \text { problems. }\end{array} & \begin{array}{l}\text { In addition to Level 4 } \\ \text { pensistently and } \\ \text { accurately converts } \\ \text { different-sized } \\ \text { standard } \\ \text { measurement units } \\ \text { within a given } \\ \text { measurement } \\ \text { system; uses these } \\ \text { conversions to solve } \\ \text { real world problems. } \\ \text { involving conversion }\end{array} \\ \text { units. }\end{array}\right]$

Revised 2/17

|  | operations on fractions impacts ability to solve problems. | scaffolding; does not recognize errors; limited understanding of how operations of fractions impacts ability to solve problems. | few errors; selfcorrects most errors; uses operations of fractions to solve some problems involving information presented in line plots. | measurements in fractions of a unit; uses operations of fractions to solve problems involving information presented in line plots. | measurements in fractional increments to peers. |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Measure cubic volume. | Measures cubic volume with guidance. | Measures volume by counting unit cubes as well as using standard measures of volume (cubic cm, cubic in, cubic ft) with scaffolding; does not recognize errors. | Measures volume by counting unit cubes as well as using standard measures of volume (cubic cm, cubic in, cubic ft) with few errors; selfcorrects most errors. | Consistently and accurately measures volume by counting unit cubes as well as using standard measures of volume (cubic cm, cubic in, cubic ft ). | In addition to Level 4 performance, models and explains measuring cubic volume to peers. |
| Solve word problems for volume. | Solves problems for volume with guidance; limited understanding of the operations of how multiplication and addition impact ability to solve problems. | Solves some real world problems involving volume with scaffolding; limited understanding of how operations of multiplication and addition impact ability to solve problems. | Solves some real world problems involving volume by relating volume to the operations of multiplication and addition. | Consistently and accurately solves real world problems involving volume by relating volume to the operations of multiplication and addition. | In addition to Level 4 performance, able to solve novel problems involving volume. |

| Geometry: | Graphs points on the | Graphs points in the <br> first quadrant of the <br> coordinate plane with <br> scaffolding; does not <br> recognize errors; <br> interprets values of <br> points with <br> coordinate plan with <br> guidance. | Graphs points in the <br> first quadrant of the <br> coordinate plane. <br> few errors; self- <br> corrects most errors; <br> interprets values of <br> points based on <br> context and <br> exemplars. | Consistently and <br> accurately graphs <br> points in the first <br> quadrant of the <br> coordinate plane; <br> interprets values of <br> points based on <br> context. | In addition to Level 4 <br> performance, models <br> and explains graphing <br> points on the <br> coordinate plane to <br> peers. |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Classify two- <br> dimensional figures. | Classifies two- <br> dimensional figures <br> with guidance. | Classifies two- <br> dimensional figures <br> based on properties | Classifies two- <br> dimensional figures <br> based on properties | Consistently and <br> accurately classifies <br> two-dimensional | In addition to Level 4 <br> performance, models <br> and explains |

Revised 2/17

|  |  | with scaffolding; does <br> not recognize errors. | with few errors; self- <br> corrects most errors. | figures based on <br> properties. | classification of two- <br> dimensional figures. |
| :--- | :--- | :--- | :--- | :--- | :--- |
